Claims 16 and 20 are objected to because of the following informalities: the phrases “the securing devices”, as set forth in claim 16, “the down side” and “the plumb line”, as set forth in claim 20, lack antecedent basis. Appropriate correction is required.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 15-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The reference to a “second distance”, as set forth in claims 15 and 20, when a first distance was not previously claimed is improper. The positive limitations with respect to a user, as set forth in claims 15, 20 and 25, when a user is not being claimed renders the claim indefinite. The limitation “receive and comprise”, as set forth in claim 21, is unclear.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 15-22 and 24-26 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by either Smith at 24 or King at 10.

Claims 15-26 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Lundholm in fig.3, Lossius, or French pat. '478 to Carrard.
